## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-49 are drawn to Group I, classified in class 455, subclass 510.
  - II. Claims 50-91 are drawn to Group II, classified in class 455, subclass 69.
  
2. ***Inventions I and II*** are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because ***invention I*** does not require a particular device/processor to determine the limit rescue attempts of failing connections as claimed in ***invention II***. The subcombination has separate utility such as the shifting the functionality of determining the retry limitation to a processor. Restriction is required under 35 U.S.C. 121 and 372.
  
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper..

Art Unit: 2686

4. A telephone call was made to Glenn M. Kubota on September 24, 2004 to request an oral election to the above restriction requirement. An election was not made via telephone.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of the inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Randy Peaches whose telephone number is (703) 305-8993. The examiner can normally be reached on Monday - Friday.

### ***Conclusion***
